

Charlottesville, June 12, 2024

Dear Valued Customer,

I am writing to you today to inform you of an important decision regarding our product offerings. After careful consideration and strategic planning, we have decided to discontinue our line of orthopedic power instruments and reduce our orthopedic disposables offering.

Over the past few years, we have closely monitored the performance and competitiveness of our Orthopedic Power business (OPA) and determined that MicroAire can no longer profitably compete in this market. Many factors were considered in this decision, including the supply chain, manufacturing, and commercial efforts required to keep the products alive. To better serve you and to focus our resources on delivering innovative and high-quality products, we have determined that it is in the best interest of our company and our customers to reduce this product line.

MicroAire will stop commercialization of all OPA instruments and instrument accessories as of December 31, 2024. For these products, we will accept orders until that date, unless the requested item is already out of stock. We will continue selling a reduced number of OPA disposable products, including: Pulse Lavage, K-Wires, Steinmann Pins, and select Blades and Burs.

We will continue to provide after-sale service for OPA instruments through December 31, 2026. As previously announced, Large Power instruments will receive service through May 31, 2026.

Two lists are attached to this notice:

- 1) OPA instruments, accessories, and disposables for sale through December 31, 2024 until supplies last
- 2) OPA disposables that will continue to be available

Looking ahead, we are excited to focus our efforts on expanding and enhancing our other product lines, which have shown significant promise and growth potential. Our goal is to continue to innovate and provide our customers with the best possible solutions for their medical device needs. Our Customer Service team is dedicated to helping you through this transition and is available to answer any questions you may have.

Sincerely,

Jerome Barrillon  
President

**Instruments, Accessories & Disposables available through December 31, 2024 as supplies last**
